OLTRE 30 ANNI DI INNOVAZIONE NELL'ARTE DELLA TAVOLA

Ro.ial vanta oltre 30 anni di innovazione nel settore della arte della tavola, operando esclusivamente nel mercato B2B. La nostra azienda si distingue per l'alta qualità dei prodotti offerti, che combinano design raffinato e funzionalità. Grazie ad un'attenzione scrupolosa ai dettagli e a una continua ricerca di materiali e tecnologie all'avanguardia, Ro.ial garantisce soluzioni che soddisfano le più alte aspettative dei professionisti del settore. Siamo fieri di collaborare con partner commerciali che condividono i nostri valori di eccellenza, sostenibilità e innovazione, offrendo loro non solo prodotti, ma vere e proprie esperienze di qualità. Con Ro.ial, l'arte della tavola raggiunge nuove vette di eleganza e raffinatezza, senza rinunciare alla praticità.

OVER 30 YEARS OF INNOVATION IN TABLEWARE

Over 30 years of innovation in tableware sector, Ro.ial operates exclusively in the B2B market. Our company is distinguished by the high quality of its products, which combine sophisticated design and functionality. Thanks to meticulous attention to detail and continuous research into cutting-edge materials and technologies, Ro.ial guarantees solutions that meet the highest expectations of industry professionals. We are proud to work with business partners who share our values of excellence, sustainability and innovation, offering them not just products, but real quality experiences. The tableware art reaches new heights of elegance and sophistication with Ro.ial, without sacrificing practicality.

RO.IAL

L'azienda

La nostra azienda nasce nel 1994, dalle perspicaci intuizioni di due giovani imprenditori pratesi che hanno riconosciuto nei primi scampoli di tessuto non tessuto proveniente dagli Stati Uniti le grandi potenzialità di quelli che sono divenuti col tempo prodotti utilizzati ormai da ognuno di noi nella vita quotidiana. Inizialmente specializzati in articoli per la pulizia, siamo riusciti, con impegno costante e grande dedizione, ad ampliare le applicazioni del tessuto non tessuto, passando per il settore della bellezza e cura dei capelli, fino al comparto ho.re.ca. e al settore sanitario. Oggi contiamo oltre 130 dipendenti, 8 unità produttive su circa 50.000 mq di superficie coperta e una rete vendita capillare su tutto il territorio nazionale, composta dai migliori grossisti del settore professionale. L'incessante

ricerca di innovazione, sia per quanto riguarda i processi produttivi di ultima generazione, sia relativamente alla scelta di materie prime di eccellente qualità, accompagnata dal gusto del bello e dalla cura dei dettagli, contraddistingue da sempre la nostra mission aziendale. Costantemente attenti alla soddisfazione del cliente, puntiamo a instaurare relazioni solide sia con i nostri partner che con i collaboratori e colleghi, per raggiungere insieme gli obiettivi con passione e fiducia reciproca.

Negli anni la nostra azienda è diventata la realtà di riferimento a livello nazionale nello scenario dei prodotti

monouso in tessuto non tessuto, riuscendo a posizionarsi tra le prime in Europa e nel mondo, con esportazioni verso più di 70 Paesi. Negli ultimi anni più che mai siamo particolarmente attenti al tema della sostenibilità ambientale, sia in termini di utilizzo di fonti energetiche rinnovabili per l'alimentazione del comparto produttivo, sia per quanto riguarda l'uso di materie prime a bassissimo impatto ambientale, che rispettino i criteri di gestione responsabile delle foreste e compostabilità. A questo proposito, il nostro Dipartimento di Ricerca e Sviluppo si adopera continuamente per sviluppare prodotti usa e getta ecologicamente intelligenti, che offrano la massima funzionalità, senza però impattare negativamente sull'ambiente. Negli ultimi anni abbiamo inoltre conseguito le certificazioni OK Compost Industrial, FSC e PEFC. Di recente abbiamo intrapreso un ambizioso percorso di trasformazione digitale che ci porterà ad un completo controllo della gestione, per il conseguimento di ancora più elevati standard qualitativi. Questa forte vocazione digitale ci ha spinto ad espandere e consolidare il progetto Industria 4.0 fino alla creazione di uno strumento completamente innovativo e personalizzato che supporterà le nostre azioni di marketing e di vendita, attraverso l'utilizzo della tecnologia AR (Realtà Aumentata).

IT Materiale di derivazione naturale in cui le fibre di cellulosa sono fissate tenacemente da leganti vinilici e la cui resistenza alla trazione è superiore alla cellulosa tradizionale. Il materiale si presenta alla vista liscio ogoffrato, è morbido al tatto ed estremamente assorbente. Generalmente nasce bianco e può essere stampato con un'ottima tenuta dei colori, dovuta al forte coefficiente di assorbenza del materiale stesso; può anche nascere già colorato in polpa. Lo smaltimento corretto è nella raccolta differenziata carta (si consiglia

verifica con le Amministrazioni Locali).

EN Material made of natural cellulose fibres, that are bonded together with vinyl binders, with tensile strength much higher than traditional cellulose. It can be plain or embossed, very soft and extremely absorbent. Airlaid is usually white at the origin, and, because of its high level of absorbency, it can be printed producing beautiful and colour fastness results. The material can also be pulp-coloured.

AIRLAID DECORATO PRINTED AIRLAID

Il Materiale di derivazione naturale in cui le fibre di cellulosa sono fissate tenacemente tramite forti getti d'aria e la cui resistenza alla trazione è superiore alla cellulosa tradizionale. Il materiale si presenta alla vista liscio o goffrato, è morbido al tatto ed estremamente assorbente. Generalmente nasce bianco e può essere stampato con un'ottima tenuta dei colori, dovuta al forte coefficiente di assorbimento del materiale stesso; può anche nascere già colorato in polpa. Lo smaltimento corretto è nella raccolta differenziata carta (si consiglia verifica con le Amministrazioni Locali).

EN Material made of natural cellulose fibres, that are bonded together by strong air jets, with tensile strength much higher than traditional cellulose. It can be plain or embossed, very soft and extremely absorbent. Airlaid is usually white at the origin, and, because of its high level of absorbency, it can be printed producing beautiful and colour fastness results. The material can also be pulp-coloured.

TESSUTO NON TESSUTO NON-WOVEN

□ Materiale di derivazione mista, naturale e/o sintetica, le cui fibre sono fissate tra loro tramite intreccio, il che rende il tessuto estremamente resistente alla trazione e soffice. Si presenta generalmente liscio, è morbidissimo e drappeggia esattamente come una vera stoffa. Nasce bianco e può essere stampato con un fissaggio dei colori ad "effetto tessile". Lo smaltimento corretto è nella frazione secca della differenziata (si consiglia verifica con le Amministrazioni Locali). Tutti i decori stampati su tessuto non tessuto spunlace possono essere prodotti in versione Bio-compost, su richiesta, per un minimo di produzione che dipende dal decoro scelto. EN Material that is a blend of natural and/or synthetic components. Its fibres are interlaced and gives it an extremely high tensile strength. It is very soft and looks, feels and drapes like real cloth. Spunlace is white at the origin and can be printed, with nice colour fastness and results very similar to printed fabrics. All the designs printed on non-woven tissue spunlace can be produced in Bio-compost version, on request, for a minimum order quantity that depends on the design chosen.

TESSUTO NON TESSUTO

POLIPROPILENE

NON-WOVEN

POLYPROPYLENE

Materiali 100% sintetici che nascono dalla lavorazione di un polimero plastico, il polipropilene, tramite una tecnica di produzione chiamata "spun bonded". Tale lavorazione rende le fibre resistentissime alla trazione. Si presenta sempre gofrato, nasce bianco o colorato in origine, ed ha una gamma colori sconfinata. Lo smaltimento corretto in caso di prodotto pulito può avvenire nella frazione all'aperto.
EN Material that is 100% synthetic and comes from a plastic polymer

(polypropylene) that undergoes a production technology called "spun bonded" gives the fibres an extremely high tensile strength. The material is embossed and is produced white or in an unlimited range of colours.

Folded 1/8 Pocket

PRODUZIONI PERSONALIZZATE

È possibile produrre tovaglie e tovaglioli a marchio del cliente, su quantitativo minimo, variabile a seconda del formato, del materiale e del numero dei colori di stampa richiesti. È necessario l'invio per email del logo del cliente (preferibilmente in formato pdf o altro formato vettoriale), in modo da valutarne la fattibilità e poter poi elaborare bozza grafica. I costi degli impianti stampa e/o dei lavori grafici non hanno una tariffa fissa, ma vengono addebitati al costo. Per poter procedere con la produzione è necessario aver ricevuto conferma scritta dell'offerta e della bozza grafica. Per le stampe su fondo colorato il risultato finale è influenzato dal colore di base e non potrà essere totalmente fedele alla proposta effettuata; per tale motivo, con basi colorate si consiglia di scegliere stampe tono su tono. Su fondo bianco, invece, il risultato ottenibile sarà sicuramente più fedele ai colori mostrati sulla bozza; tuttavia, la grande capacità di assorbimento del materiale e il fatto che gli inchiostri utilizzati siano a base acquosa, fanno sì che i colori tendano comunque a risultare meno brillanti rispetto a quelli stampati su bozzetto di carta.

CUSTOMIZED PRODUCTIONS

We can produce tablecloths and napkins with customers' logo; the minimum order quantity varies on the basis of the size, material and number of colours chosen. It is necessary to send the customer's logo by email (possibly in pdf or other vector format), so that we can consider its feasibility and develop a graphic draft. Costs of printing plants and/or graphics don't have fixed costs, but will be charged at cost price. In order to start the production, it is necessary to get written confirmation of the offer and of the graphic draft. For the printings on coloured base, the final

result will be affected by the colour of the background and cannot be totally identical to the graphic proposal;

we recommend to choose tone-on-tone printings.

On the other hand, on white base, the final results will be surely more accurate; nevertheless, the high absorption capacity of the materials together with the usage of water based inks make the colours appear less brilliant than those printed on the paper draft.

FAMILY

LA NOSTRA GAMMA DI TOVAGLIE E TOVAGLIOLI OFFRE SOLUZIONI SU MISURA E ACCATTIVANTI PER SUPERMERCATI, IPERMERCATI E GRANDE DISTRIBUZIONE, MANTENENDO ELEVATI GLI STANDARD QUALITÀ, SERVIZIO E PRATICITÀ.

PANNONET

PANNONET è un panno antistatico atossico e inodore, che attrae e assorbe anche la polvere più invisibile, lasciando le superfici pulite e luminose. L'olio di cui sono impregnate le garze PANNONET non lascia residui né untuosità e risulta, al contrario, un ottimo idratante per le superfici in legno. Grazie al suo elevato effetto antistatico è ideale per rimuovere polvere e peli d'animale da tutte le superfici lisce. Morbido e resistente, sia a secco sia da umido, è disponibile in svariate dimensioni per rispondere alle diverse esigenze di detergenza. PANNONET is a duster cloth impregnated with a special non-toxic and odorless oil, which attracts and absorbs even the most invisible dust, leaving the surfaces clean and bright. This oil leaves no residue or greasiness and is an excellent moisturizer for wooden surfaces. Thanks to its high antistatic properties it is ideal for removing dust and pet hair from all smooth surfaces. Soft and resistant, both dry and wet, it is available in various sizes to meet the different cleaning requirements.

OLIO DI IMPREGNAZIONE

- Idoneità al contatto diretto con alimenti (rif. Regolamento (CE) N. 1935/2004 DM 21/03/1973 e successivi aggiornamenti e modifiche)
- Elevata resistenza all'ossidazione
- Elevata resistenza alla degradazione chimica
- Ottima protezione contro la ruggine e la corrosione
- Alto grado di trasparenza
- Inodore, incolore e insapore
- Eccellente stabilità alla luce

IMPREGNATION OIL

- Compliant with food contact regulations (ref. EC Regulation No. 1935/2004, Italian DM 21/03/1973 and further modifications)
- High resistance to oxidation
- High resistance to chemical degradation
- Excellent protection against rust and corrosion
- High degree of transparency
- Odorless, colorless and tasteless
- Excellent light stability
